

INFORMATION TECHNOLOGY ADVISORY SERVICES

We understand the critical nature of information technology systems, and the need to keep them available and secure and help to fulfill the strategic initiatives of your business or organization. Our experienced advisors can help you use IT as a strategic and competitive weapon, not just tools for back office productivity.

HoganTaylor helps clients achieve optimum results in their ability to manage IT Risk, mitigate those risks, and improve performance with cost-effective solutions. Our goal is to deliver practical solutions to your organization's data protection, which means helping identify the most effective ways to address specific concerns regarding IT-related compliance, security and control issues relevant to your environment and needs.

OUTSOURCED CHIEF INFORMATION OFFICER & TECHNOLOGY SOLUTIONS

HoganTaylor's IT Advisory Services team provides Chief Information Officer (CIO) and Technology Solution level services to enable business owners to spend more time running their business and less time worrying about information technology. HoganTaylor can provide supplemental CIO leadership services alongside your existing team, assisting with strategic planning, portfolio management, IT cost analysis and rationalization, and project management while your team focuses on delivering operational excellence and customer service.

We are experts at helping you deliver your most critical and strategic IT project initiatives. From building a program office to managing portfolios and programs, to executing both small and very large IT projects with Project Management Institute (PMI) compliant methodology. We will also help you build your project's business case and then track actual business value realization to ensure corporate goals are achieved.

CYBER SECURE

Our Cybersecurity team is comprised of experienced professionals from a diverse range of backgrounds, including information security, information technology, operations, and data privacy, as well as forensic technology, data analytics, business advisory, insurance, and accounting practitioners. We are built to provide comprehensive and customized services for each client, focusing on your specific operating model, technical demands, regulatory environment, and industry dynamics.

We recognize that a customized cybersecurity program is part of a successful business strategy. Our unique combination of technology and business advisory practices places a high priority on risk management, while supporting immediate and long-term business growth. We work collaboratively with clients to develop and implement comprehensive cybersecurity programs that are both effective and sustainable.

IT STRATEGY & ASSESSMENTS

Depending on your needs, we can also perform:

- Strategic planning
- Risk assessments
- Governance
- Cost analysis
- Portfolio & project management
